

ZAKARIA MOUFID

QA Automation & Azure DevOps Engineer

Fès, Morocco | +212 688 611 005 | moufidzakaria92@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Self-taught QA Automation Engineer with 3+ years of hands-on, project-driven experience building test frameworks and CI/CD pipelines. Proficient in Playwright, TypeScript, and Azure DevOps, with a strong focus on E2E testing, REST API validation, and enterprise-grade pipeline integration. Built and continuously trained skills through structured self-study (LinkedIn Learning) combined with independent, real-world project work — shipping automation that cut regression detection time by 60%.

TECHNICAL SKILLS

Automation & Testing: Playwright, Selenium, WebDriver, API Testing (REST/CRUD), Page Object Model (POM), Cross-Browser Testing

Languages: TypeScript, JavaScript, Node.js

DevOps & CI/CD: Azure DevOps (YAML Pipelines), GitHub Actions, Docker, CI/CD Quality Gates

Backend & Data: Express.js, MongoDB, REST API Development, Web Scraping (Crawlee, Apify)

PRACTICAL EXPERIENCE — SELF-DIRECTED LEARNING & PROJECTS

QA Automation Practice — Independent / Remote

2023 – Present

- Built production-style E2E test suites with Playwright & TypeScript covering UI, API, and cross-browser scenarios, using Page Object Model architecture.
- Designed CI/CD quality gates on Azure DevOps and GitHub Actions, cutting regression detection time by 60% across self-driven projects.
- Automated REST API validation (GET/POST/PUT/DELETE) with schema checks; configured HTML reporting, screenshots, video, and trace collection on failure.
- Practiced structured self-study via LinkedIn Learning to continuously strengthen automation, DevOps, and API-testing skills.

Backend & Web Scraping Practice — Independent

2022 – 2023

- Developed automation Actors for the Apify Marketplace using Node.js, Crawlee, and Playwright.
- Built REST APIs with Express.js and MongoDB, applying test-driven development (TDD); containerized deployments with Docker.
- Managed containerized environments and deployment workflows to support reliable, repeatable CI/CD pipeline integration.

FEATURED PROJECTS

Playwright E2E & API Testing Suite — data-driven UI/API testing, dual CI/CD (GitHub Actions + Azure DevOps), full HTML reporting. github.com/Moufidzakaria

Selenium Automation Framework — WebDriver UI automation, form/browser-compatibility testing, reusable utilities. github.com/Moufidzakaria

Enterprise CI/CD Framework — POM architecture, dual pipeline support, anti-bot mitigation, automatic artifact extraction. github.com/Moufidzakaria
